WHAT’S MISSING FROM “CYBERSECURITY WEEK”?

Unaddressed Recommendations from the Speaker’s Cyber Task Force:

• “Adopt a menu of voluntary incentives to encourage private companies to improve cybersecurity”

• “Consider carefully targeted directives for limited regulation of particular critical infrastructures...using existing regulators”

• “Formalize the Department of Homeland Security’s current role in coordinating cybersecurity for federal civilian agencies”

• “Address data breach notification legislation that simplifies compliance for businesses and protects the sensitive personally identifiable information of individuals”
