

## **Sheriff Stanek Supports the McCaul-Warner Commission on Digital Security**

*"I commend Chairman McCaul on his work to move this important national conversation forward. This Commission will assemble the right mix of experts - law enforcement, the technology sector, privacy & civil liberties groups, and our intelligence community – to provide thorough analysis and a comprehensive list of recommendations, ensuring that both collective national security interests and individual civil liberties are protected."*

- Sheriff Rich Stanek (Hennepin County, MN)
