

**Former Director of the National Counterterrorism Center Matthew Olsen Supports
Bipartisan and Bicameral McCaul-Warner Commission**

March 1, 2016

"I support the bipartisan efforts of Representative McCaul and Senator Warner to launch a national commission to study the security and privacy issues posed by digital technologies. Assembling a Congressionally mandated group of experts to discuss these issues is the most responsible way forward, and I endorse the collaborative effort to study the challenges we face in a constructive manner."

- Matthew Olsen, Former Director of the National Counterterrorism Center
